

M AND120-MAN

SCHEDA TECNICA

Like the other Multipole connectors, the SB[®]120 offers color-coded mechanically keyed housings. Keys can be used to identify and separate different circuits, or prevent users from accidentally cross mating different voltages. Wires sizes from #10 (5.3 mm²) to #1 (42.4 mm²) are held in the second smallest SB[®] housing.

- **New extended range contacts expand wire size up to #1 AWG (42.4 mm²)**
Allows UL rated currents up to 240 amps
- **Chemical resistant housing option**
Extends temperature range down to -40°C, while offering enhanced UV and chemical resistance
- **Panel mounting grooves**
With use of mounting clamps, can be easily mounted through panels

Handle makes mating and unmating the connector easier. The non-conductive gray plastic material is strong and safe. Machine screws and locknuts included.
